

For Immediate Release

SAVERS; The Recycle Superstore 'Moooving' to Shepparton

SHEPPARTON, VIC - April 3, 2009-

SAVERS; the Recycle Superstore announced recently that it will open a new Store in High Street, Shepparton. The Store Opening is scheduled for 30th April 2009 and will create 40 + employment opportunities as well as much needed business for local traders.

" We have recruited our new Store Team locally" said Donna McMaster, SAVERS Managing Director. In a real vote of confidence for Regional Victoria, the arrival of SAVERS in Shepparton has created over 40 employment opportunities across a variety of roles. A career track with Savers provides invaluable retail experience and training as well as opportunities for individuals to quickly advance through the Company.

" It is also our intention to work with local businesses and build a long and loyal relationship with traders in the area. As a result, we expect to invest millions of dollars into the Greater Shepparton Community across the next 5 - 10 years ", McMaster said.

SAVERS are no different to other retail Stores and will engage in advertising and require services and goods to support their Store and Team. This will be a real boost for the local economy and is a positive development in sharp contrast to the many other reported business closures and redundancies in the Shepparton area in the past year.

About Savers

Founded in 1954, Savers is a privately held for-profit international second hand store chain with 220 locations across the U.S, Canada & Australia. The Company partners with 120 local non-profit organizations across it's network..
